ON THE CONTAINER

STATE-OF-THE-ART SECURITY AND CONTROL

On The Container is a cutting-edge and agile logistics solution designed to provide unrivaled security, transparency, and control over your supply chain. Embrace the power of state-of-the-art technology to streamline your operations and gain full visibility of your assets at all times.

SOLVING CONTAINER SECURITY CHALLENGES

Our cloud-based container security system scans and captures detailed container information upon arrival at the storage yard. It delivers a transparent, live, and accurate view of your assets and site, empowering you with real-time data for informed decision-making

-  Track and monitor departures and arrivals
-  Get real-time container arrival notifications
-  Ensure precise driver information
-  Scan clamp, seal numbers and any other container details you require
-  Activate automatic incident notifications
-  Unlimited customisation in input and output data, e.g. Gate pass shown, KM reading, route number, and more
-  Quickly and easy collect and view any recorded damages to vehicles, trucks or containers
-  Quickly and automatically generate daily, weekly or monthly visitation reports using custom data points

COMPARE PLANS
