ATG CAM

ENHANCED VEHICLE DATA VERIFICATION

ATG Cam is an LPR (License Plate Recognition) solution designed to provide unparalleled vehicle data verification and monitoring capabilities. Our cutting-edge technology compares the license plate with the license disc, ensuring accurate and reliable information about each vehicle. Say goodbye to manual data entry errors and embrace a seamless, efficient verification process with ATG Cam.

SEAMLESS INTEGRATION

ATG Cam seamlessly integrates into any existing access control and security infrastructure. Enjoy real-time data synchronization, accurate visitor tracking, and automated incident reporting.

Vehicle data verification and alerts of irregularities

Compares licence disc to licence plate

Creates incident if vehicle disc wasn't scanned in

Real-time 24/7 monitoring

POPI & GDPR Compliant

Instant view of all current on-site individuals

Flag and block unauthorised or unwanted individuals

FEATURES

All plans include technical and quick support, upgrades, updates and notifications
