

SMART ACCESS AND VISITOR MANAGEMENT SOLUTIONS

Unlimited Data, Multiple Solutions, One Place.

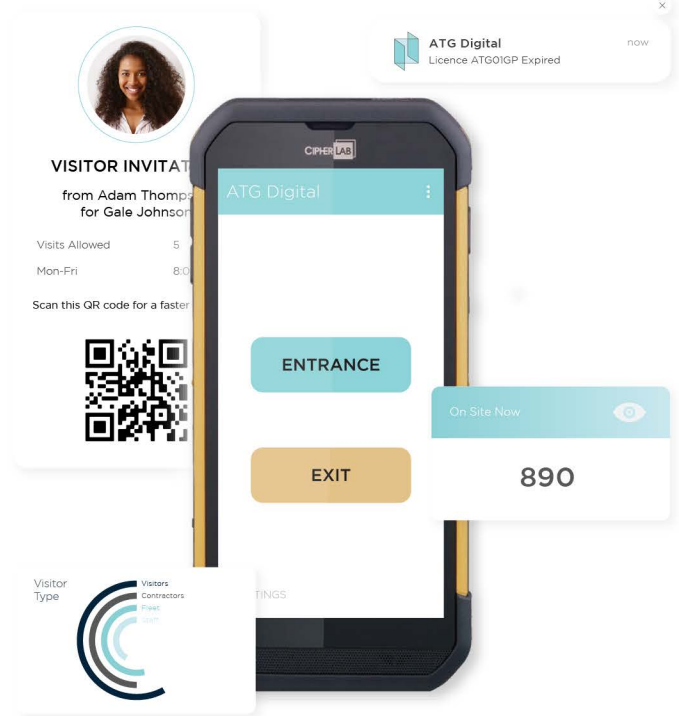

Where innovation meets unparalleled customisation! Streamline operations, manage access, monitor visitors, and safeguard your premises with our state-of-the-art, completely customisable, access control and visitor management solutions. Experience seamless security tailored to your needs and unlock a new era of convenience and efficiency.

AT THE GATE

At The Gate provides real-time visitor data authentication, including vehicle and driver's licenses, in compliance with POPIA regulations. Our customisable mobile gate access control system ensures a seamless experience for visitors, employees, and management alike, while prioritising the security of your people and data.

-  Licence, ID and passport scanning and authentication
-  Simplify visitor registration with pre-registration capabilities
-  Fully customisable solution with flexible fields to meet specific site needs
-  Receive instant notifications on incidents, arrivals, and more
-  Flag and block unauthorised or unwanted individuals
-  POPI and GDPR compliant

AT RECEPTION

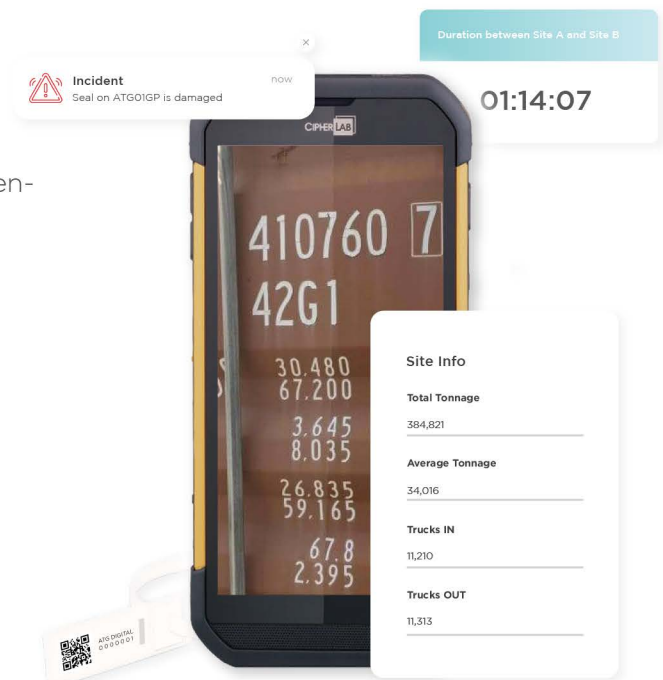

At Reception is a state-of-the-art visitor management system that is loved throughout South Africa. Our intelligent design streamlines your front-desk security protocol! Seamlessly record all your visitors' information upon arrival, while reinforcing your company branding and automating the sign-in process.

-  Customisable sign in
-  Visitor arrival notifications
-  Capture visitor photos, details & produce custom reports
-  Print custom visitor ID badges

ON THE CONTAINER

On The Container is a cutting-edge and agile logistics solution designed to provide unrivaled security, transparency, and control over your supply chain. Our cloud-based container security system scans and captures detailed container information upon arrival at the storage yard. It delivers a transparent, live, and accurate view of your assets and site.

-  Track and monitor departures, arrivals and inter-site duration
-  Get real-time container arrival notifications
-  Scan clamp, seal numbers and any other container details you require
-  Customisation in input and output data, e.g. Gate pass shown, KM reading, route number, and more
-  Quickly and easy collect and view any recorded damages to vehicles, trucks or containers

ATG CAM

ATG Cam is an LPR (License Plate Recognition) solution designed to provide unparalleled vehicle data verification and monitoring capabilities. Our cutting-edge technology compares the license plate with the license disc, ensuring accurate and reliable information about each vehicle.

Vehicle data verification and alerts of irregularities

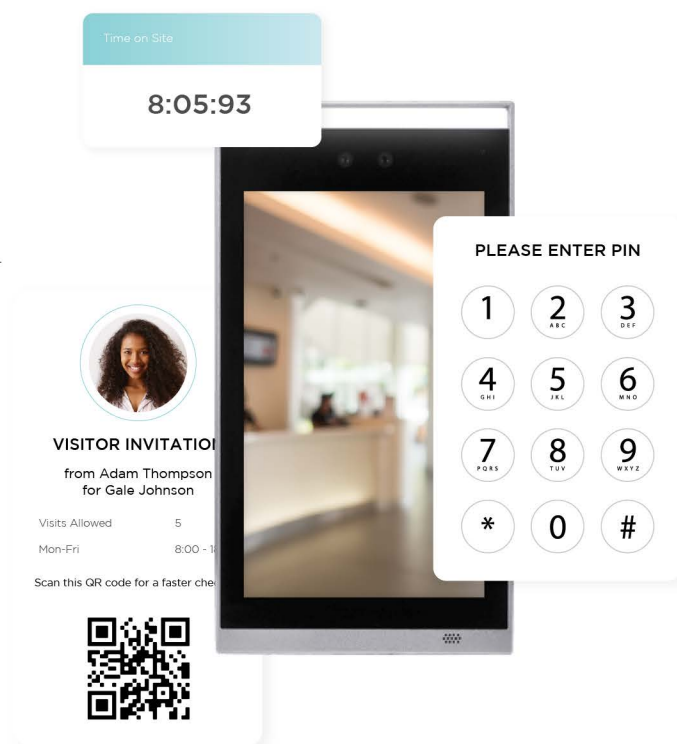

Creates incident if vehicle disc wasn't scanned in

Real-time 24/7 monitoring

ATG FACIAL

The pinnacle of visitor, contractor and employee management, driven by advanced facial recognition. Simplify visitor check-ins, streamline pre-registration, and monitor time attendance – all with seamless efficiency. Embrace the touchless era of sign-ins, unlock custom reports, seamlessly integrate with access points, and elevate your security measures.

- Seamless and contactless sign-in
- Visitor verification and recognition
- Time-based access restrictions and limitations
- Time and attendance tracking and overview

ATG UHF READER

A revolution in seamless, contactless entry where convenience meets security. Say farewell to remote fumbling, entry queues, and stopping for ID tags. With effortless access for frequent drivers and customisable permissions, you're in command. Empower employees, contractors, and regular visitors with precisely timed, area-specific entry.

Fast and contactless entry

Safeguard against false or unauthorised access

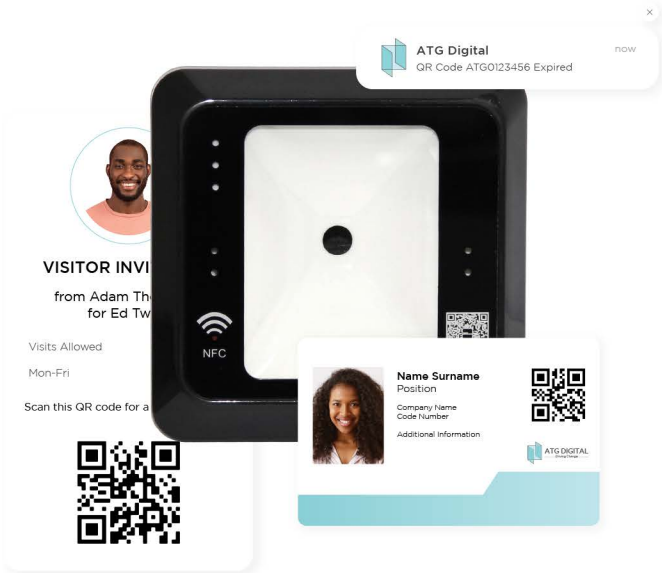

Flag blocked vehicles for "no entry"

Time-based access restriction and limitations

ATG QR READER

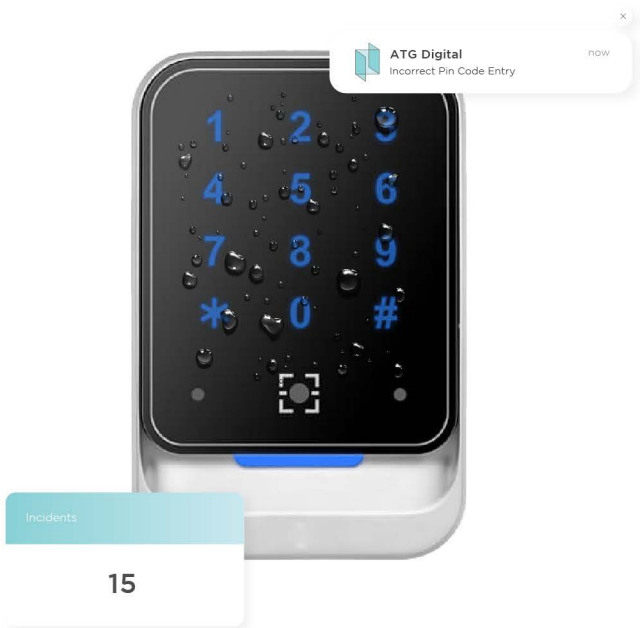

Our QR Code Reader solution prioritises security, enabling precise access control. With swift scanning, authorised users gain instant access to designated areas, while intelligent flagging and blocking settings prevent unauthorised entry. Manage access within specified time durations for maximum security.

-  QR Code invitations for seamless and contactless access
-  NFC card reader
-  Flag and block unauthorised or unwanted individuals
-  Real-time arrival, departure or incident notifications

ATG QR KEYPAD

ATG QR Keypad offers a versatile multi-mode entry system designed to cater to your unique preferences and requirements. Whether you prefer the simplicity of QR code scanning, or the reliability of keypad/PIN code entry, ATG QR Keypad has you covered. Enjoy a seamless and secure access experience that puts you in control.

- Secure modern pin code entry 
- QR Code invitations for seamless and contactless access 
- RFID Reader 
- Real-time insights and reporting 
- IP65 Waterproof 

ATG EXTENSION SUITE

DASHBOARDS

View live updates on your most important visitor or risk stats
