# OPTIMISED.

## WEIGHBRIDGE INTEGRATION

Optimised seamlessly connects with any weighbridge to accurately verify weights, masses, and tonnages. This capability ensures that every logistical transaction is logged with pinpoint precision, reducing discrepancies, preventing fraud, and maintaining complete transparency from the point of entry to exit.

## END-TO-END SHIPMENT VISIBILITY

From order creation to final delivery, Optimised provides comprehensive real-time tracking and management of shipments. Every stage of the logistical journey is monitored, allowing for immediate updates and precise control. This visibility ensures that no detail is overlooked, facilitating smoother operations, quicker responses to issues, and more effective management of resources.

- Vehicle & Driver Registration
- Order Creation & Freight Management
- Real-Time Shipment Tracking
- Weighbridge Ticket Generation
- Document Barcode Verification
- Role-Based Access Control
- Database Management
- Mass Data Uploads
- Enhanced Reporting

## VEHICLE TRACKING

A full database of registered vehicles, including RFID, registration details, and load history.

## DRIVER TRACKING

Maintain accurate records and alerts for license expiries and credentials.

## ORDER TRACKING

Track every movement, whether it's a sales order, purchase order, or stock transfer.

## FREIGHT TRACKING

Match vehicles and drivers to specific orders with just a few clicks.

## REAL-TIME ALERTS

Follow each step in the journey - entry, weigh-in, loading, weigh-out, and exit, all recorded and visible in real-time.

## WEIGHBRIDGE DATA INSIGHTS

Gain valuable insights from weighbridge data to make data-driven decisions and optimise logistical strategies.
